**FENCING WITHOUT SEEING!** In blind fencing everybody is blindfolded. The only extra rule is that before attack the epees have to be in contact.

The camp is open for persons with or without visual impairment. If you never have fenced before contact Jorge at [argos3@gmail.com](mailto:argos3@gmail.com) for a short training.

Sign up until July 31 by mail to [emil@erdtman.se](mailto:emil@erdtman.se) (Emil). Let us know special needs or food preferences! Swedish fencers wanting to learn more about blind fencing are welcome as volunteers or spectators.

The project is financed by ERASMUS as an exchange of experience between four participant countries. For more information mail [nabelplyon@hotmail.fr](mailto:nabelplyon@hotmail.fr) (Nathalie Belpaume).
